

## WARD DOCUMENTATION

### 1) Flow Chart :

OPD FLOW CHART

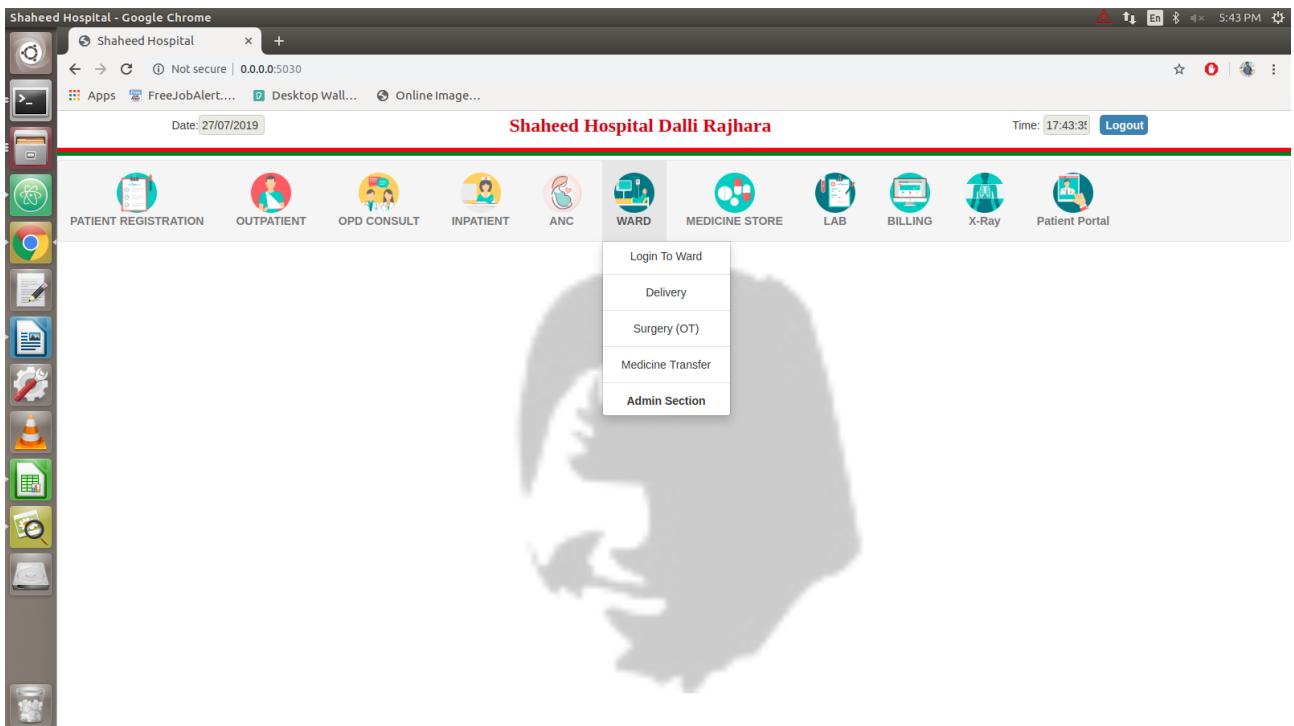

### IPD FLOW CHART

- ***In ward there are 5 sections:***

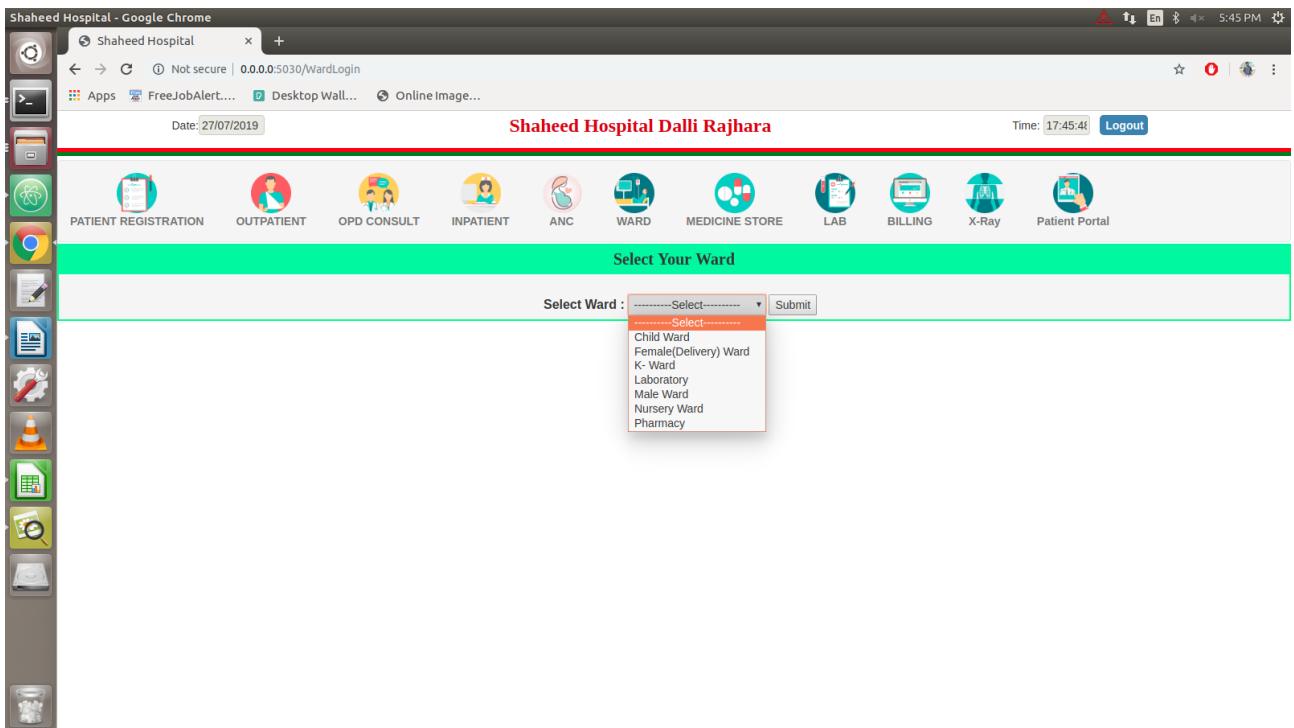

1. Login To Ward
2. Delivery
3. Surgery (OT)
4. Medicine Transfer
5. Admin Section

- **In this application there are 5 wards :**

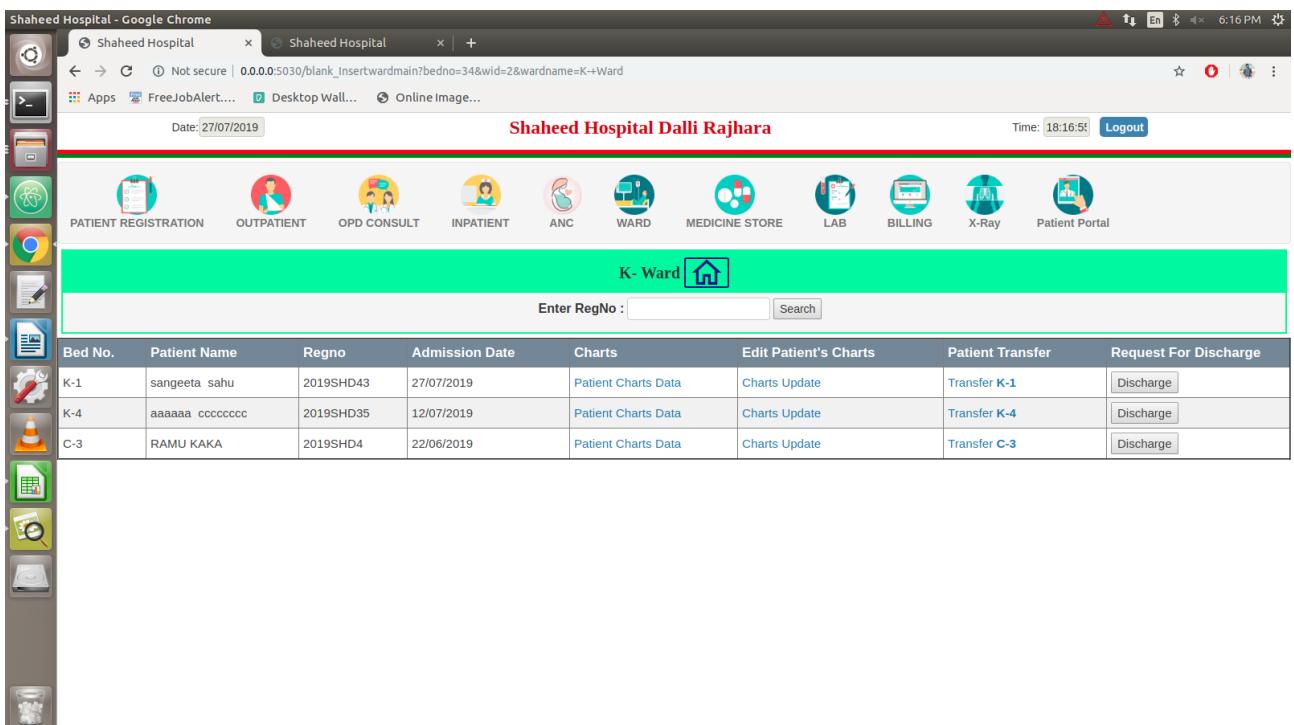

- 1) Child Ward
- 2) Female(Delivery) Ward
- 3) K-Ward
- 4) Male Ward
- 5) Nursery Ward

- Remaining 2 fields i.e. “**Laboratory**” and “**Pharmacy**” are not a ward. That are used for different purpose.
- Laboratory and Pharmacy are used by “Store” for issuing Equipment and Medicine from store.

## (1) Login To Ward:

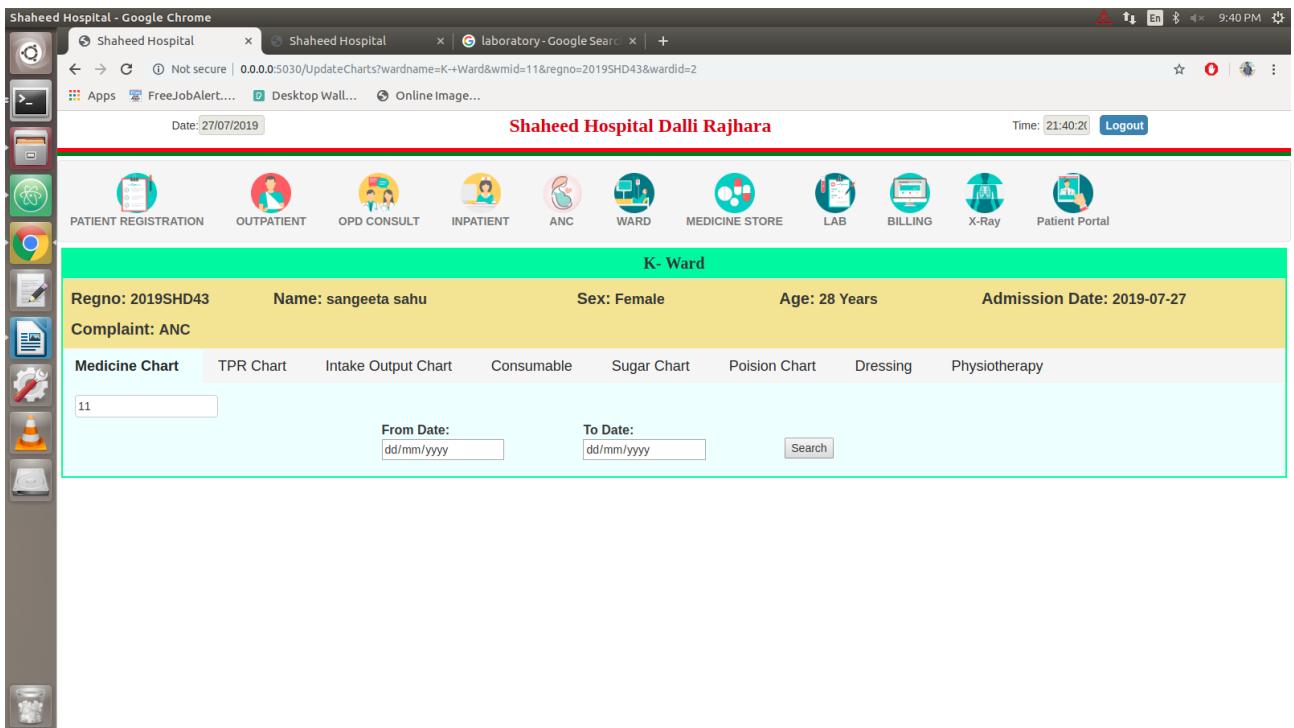

- Here you can choose your ward and submit it. after submittion, if patients are admitted in selected ward it will show like this:

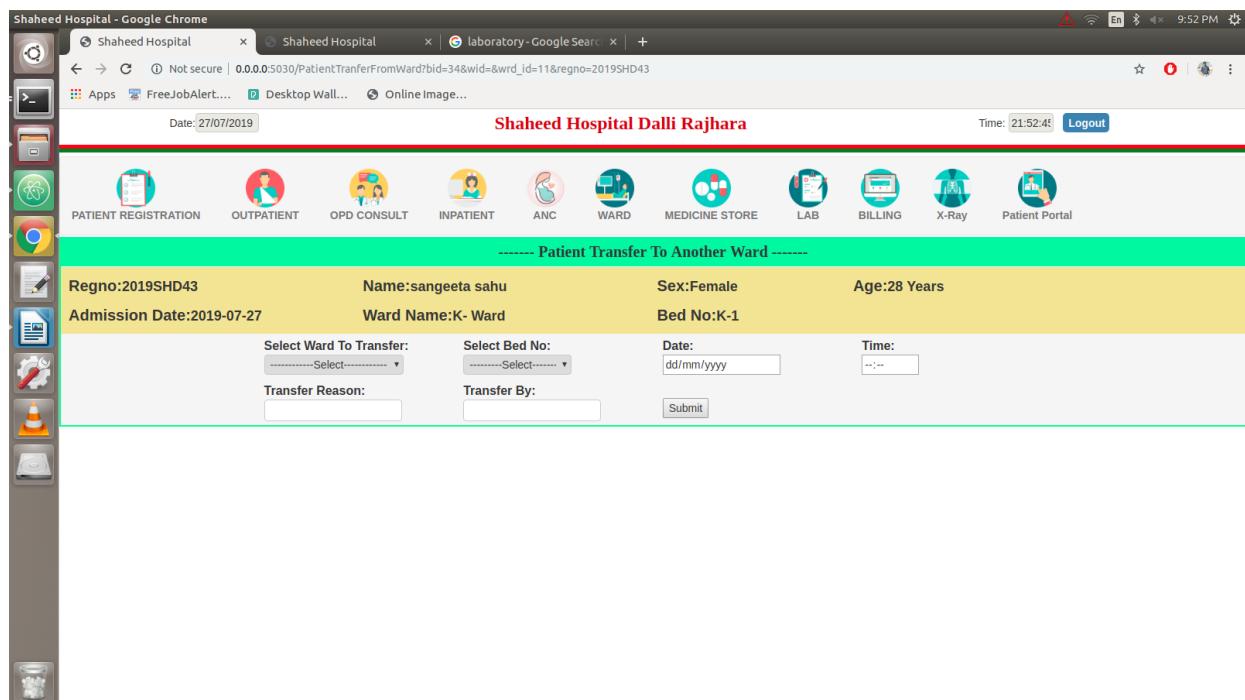

- From here you can see patient details like patient *BedNo*, *Patient Name*, *Patient RegNo*, *Patient Admission Date*, *Patient Charts*, *patient transfer*, *Patient Discharge*.
- Now if you click on “**Patient Charts Data**” it will shows :

The screenshot shows the Shaheed Hospital Dalli Rajhara software interface. At the top, there are tabs for 'Shaheed Hospital' and 'suppose - Google Search'. The main title is 'Shaheed Hospital Dalli Rajhara'. Below the title, there's a navigation bar with icons for PATIENT REGISTRATION, OUTPATIENT, OPD CONSULT, INPATIENT, ANC, WARD, MEDICINE STORE, LAB, BILLING, X-Ray, and Patient Portal. The main content area is titled 'K- Ward' and displays patient information: Regno: 2019SHD43, Name: sangeeta sahu, Sex: Female, Age: 28 Years, and Admission Date: 2019-07-27. Below this, there's a section for 'Complaint: ANC'. The central part of the screen is a chart entry form for 'Medicine Chart'. It has fields for 'Date : dd/mm/yyyy', 'Given By : Given By', 'Drug Type : Select', 'Drug Name : Medicine Name', 'Schedule : Select', and 'Save' button. There are also 'ADD +' and 'Remove -' buttons. On the far left, there's a vertical sidebar with icons for various hospital departments.

- Here we can insert patient charts details like **Medicine chart**, **TPR charts**, **Intake O/P charts**, **Consumable**, **Sugar chart**, **Poison chart**, **Dressing chart**, **Physiotherapy chart**.
- All these charts available on Tab system like you can switch one chart to another chart from a single page.
- Now if you click on “**Chart Update**” another window will open.
- “**Chart Update**” is used for updating patient charts data.

- In main window of selected ward there is “**Transfer Patient**” column .
- Table used : **ward\_patient\_transfer**
- This is use for transfer the patient from one bed to another bed in same ward.
- This is also use for transfer the patient from one ward to another.

- In main window of selected ward there is “**Request For Discharge**” column .

- This is use for “Discharge” the patient from ward. When you click on this it will send request to Doctor for filling there History, Advice, Diagnosis for Discharge.
- You can see the request clicking on “**INPATIENT**” and then click on “**IPD DISCHARGE**”.
- Also you can cancel this request by clicking on “**Cancle Discharge**”.

Bed No.	Patient Name	Regno	Admission Date	Charts	Edit Patient's Charts	Patient Transfer	Request For Discharge
K-1	sangeeta sahu	2019SHD43	27/07/2019	Patient Charts Data	Charts Update	Transfer K-1	<input type="button" value="Cancel Discharge"/>
K-4	aaaaaa cccccccc	2019SHD35	12/07/2019	Patient Charts Data	Charts Update	Transfer K-4	<input type="button" value="Discharge"/>
C-3	RAMU KAKA	2019SHD4	22/06/2019	Patient Charts Data	Charts Update	Transfer C-3	<input type="button" value="Discharge"/>

- Here you can see Patient “Sangeet Sahu” is requested for Discharge by Doctor.

Regno	Name	Admit Date	Admit Time	Complaint	Patient From	Category	GovScheme	Ward Name	Bed No	Fill Advice	Generate Bill
2019SHD43	sangeeta sahu	27/07/2019	18:07:00	ANC	OUTPATIENT	General	Not Eligible	K- Ward	K-1	<input type="button" value="Advice"/>	

## How to Admit patient into Ward?

1. Select ward in which patient will have to admit.
2. Now Enter patient Registration Number like “**2019SHD44**” into the Text-Box.

The screenshot shows the Shaheed Hospital Dalli Rajhara software interface. At the top, there are links for PATIENT REGISTRATION, OUTPATIENT, OPD CONSULT, INPATIENT, ANC, WARD, MEDICINE STORE, LAB, BILLING, X-Ray, and Patient Portal. Below this is a search bar with the placeholder "Enter RegNo : 2019SHD44" and a "Search" button. The main table displays patient admission details:

Bed No.	Patient Name	Regno	Admission Date	Charts	Edit Patient's Charts	Patient Transfer	Request For Discharge
K-1	sangeeta sahu	2019SHD43	27/07/2019	Patient Charts Data	Charts Update	Transfer K-1	<input type="button" value="Discharge"/>
K-4	aaaaaa cccccccc	2019SHD35	12/07/2019	Patient Charts Data	Charts Update	Transfer K-4	<input type="button" value="Discharge"/>
C-3	RAMU KAKA	2019SHD4	22/06/2019	Patient Charts Data	Charts Update	Transfer C-3	<input type="button" value="Discharge"/>

3. When it submitted, related data of this patient will come and you have to allot the bed number for patient. Once bed number is allotted, the selected Bed Number will hide from there until the patient will discharge from that or transfer from that bed number.

The screenshot shows the admission form for patient Regno: 2019SHD44. The patient details are displayed at the top: Name: SUDHA CHANDRAKAR, Sex: Female, Age: 29 Years. A dropdown menu for "Bed No." is open, showing options from K-10 to K-27. A "Submit" button is visible next to the dropdown.

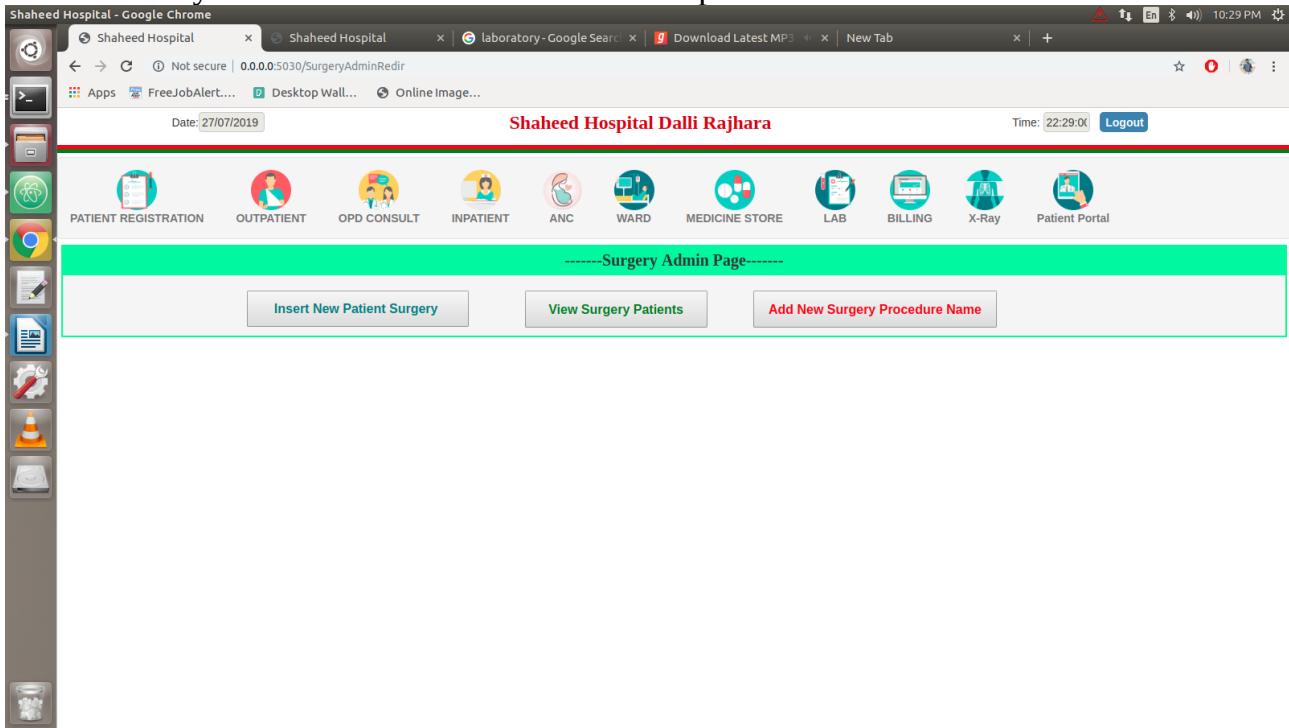

4. Now you can see Registration Number of “**2019SHD44**” will admitted in that ward.

Bed No.	Patient Name	Regno	Admission Date	Charts	Edit Patient's Charts	Patient Transfer	Request For Discharge
K-2	SUDHA CHANDRAKAR	2019SHD44	27/07/2019	Patient Charts Data	Charts Update	Transfer K-2	<input type="button" value="Discharge"/>
K-1	sangeeta sahu	2019SHD43	27/07/2019	Patient Charts Data	Charts Update	Transfer K-1	<input type="button" value="Discharge"/>
K-4	aaaaaa cccccccc	2019SHD35	12/07/2019	Patient Charts Data	Charts Update	Transfer K-4	<input type="button" value="Discharge"/>
C-3	RAMU KAKA	2019SHD4	22/06/2019	Patient Charts Data	Charts Update	Transfer C-3	<input type="button" value="Discharge"/>

### (3)Surgery (OT):

- Table used: *admin\_surgery\_procedure* , *surgery\_details*
- This is for enter Surgery patient data who belongs to “INPATIENT” or “OUTPATIENT”.
